WHS DOCUMENTS & TEMPLATES

DOC-AGR-SWI · Angle Grinder Safe Work Instruction Template

Product Overview

For: Businesses whose workers use angle grinders for cutting, grinding and finishing: owners, supervisors, WHS advisers and workplace assessors

Version 1.0 · 9 November 2026

An editable angle grinder safe work instruction: what the worker does, step by step, the hazards and controls, and the points where the work stops.

The safe work instruction sets out the purpose and scope, who may do the work, the equipment, the hazards and their controls (most effective first), PPE, the steps with clear stop points, the stop-work points, emergencies, consultation and approval, and a signed acknowledgement.

It is the same safe work instruction as in the Angle Grinder Safety & Competency Pack (DOC-AGR-PACK), word for word. The Angle Grinder VOC Assessment Template (DOC-AGR-VOC) and the Angle Grinder Field Verification Checklist (DOC-AGR-FV) are also sold on their own. The Angle Grinder Safety & Competency Pack (DOC-AGR-PACK) contains them all: the safe work instruction, the angle grinder pre-use checklist, the VOC and the field verification, with a setup guide.

No high risk work licence is needed for using an angle grinder under the WHS Regulations or, in Victoria, the OHS Regulations. The business must still make sure each worker is trained, competent and supervised for the work. Cutting or grinding outside a dedicated area may be hot work under your permit system, and cutting masonry, concrete or stone creates silica dust that needs its own controls. A VOC is the business's own check that a worker can do the work safely at its site: it is not a licence and it is not a nationally recognised qualification.

These documents support your business to manage risk and meet its WHS or OHS duties. They do not do that on their own. They are general templates: adapt them to your equipment, your site and your people, consult your workers, and check that the controls they describe are in place and working.

What is included

Item	File
Angle grinder safe work instruction: guards, disc type and speed rating, two-hand use, sparks and silica; stop-work points	02_SAFE_WORK_INSTRUCTION/Angle Grinder Safe Work Instruction.docx and .pdf
Setup note: what to adapt before use, and every placeholder	01_START_HERE/Setup Note.pdf
Start here: Read Me First, Product Overview, Permitted Use Terms, Version Information	01_START_HERE/ (four PDFs)

Who it is for

- Businesses whose workers use angle grinders for cutting, grinding and finishing
- Supervisors who brief workers on how the work is done at their site

Angle Grinder Safe Work Instruction

How to work safely with [Make and model] at [Site name]

Document number		**Version**	
Site		**Work area**	
Approved by		**Review date**	

1 Purpose and scope

This instruction sets out how to use **[Make and model]** safely at **[Site name]**: the checks before use, choosing and fitting discs, cutting and grinding, sparks and silica dust, and the points where the worker must stop.

It applies to every worker at the site, including contractors and hire users. It does not replace the manufacturer's operating instructions. Where they differ, follow the manufacturer and tell your supervisor, so this instruction can be corrected.

2 Who may do the work

- Has a current VOC for this work, and any licence or training the work needs
- Has been authorised by **[Supervisor name]** to do the work at this site
- Is fit for work, and has read this instruction and signed the acknowledgement at the end

Licence

No high risk work licence is needed for using an angle grinder under the WHS Regulations or, in Victoria, the OHS Regulations. The business must still make sure each worker is trained, competent and supervised for the work. Cutting or grinding outside a dedicated area may be hot work under your permit system, and cutting masonry, concrete or stone creates silica dust that needs its own controls. A VOC is the business's own check that a worker can do the work safely at its site: it is not a licence and it is not a nationally recognised qualification.

3 The equipment

Fill in one copy for each item of equipment, or list each one this instruction covers.

Make and model: [Make and model]	
Equipment ID: [Equipment ID]	
Attachments or accessories used	
Manufacturer's operating instructions kept at: [Operator's manual location]
