WHS DOCUMENTS & TEMPLATES

DOC-CAP-VOC · Compressed Air and Pressure Washers VOC Assessment Template

Product Overview

For: Businesses whose workers use compressors, air tools, air hoses and pressure washers: owners, supervisors, WHS advisers and workplace assessors

Version 1.0 · 9 November 2026

SAMPLE

An editable verification of competency (VOC) for compressed air and pressure washer operators: check, and record, that a operator can do the work safely at your site.

Compressed air and high pressure water can be forced through the skin, hoses whip when couplings fail, and lances push back hard. A verification of competency is how a business checks an operator uses rated hoses and whip checks, never points air or spray at people and releases pressure before changes, and keeps a record of it.

This template gives the assessor everything in one place: the scope, the pre-assessment checks, knowledge questions with a separate marking guide, a practical observation checklist, the safety-critical fail criteria that stop an assessment, the evidence to keep, the outcome, sign-off and the review date.

No high risk work licence is needed for using compressed air equipment or pressure washers under the WHS Regulations or, in Victoria, the OHS Regulations. The business must still make sure each worker is trained, competent and supervised for the work. Some pressure equipment, such as larger air receivers, may need to be registered with the regulator and inspected in service. Electrical repairs are for a licensed electrician. A VOC is the business's own check that a worker can do the work safely at its site: it is not a licence and it is not a nationally recognised qualification.

What is included

Item	File
VOC assessment tool: candidate and assessor details, scope, pre-assessment checks, practical observation checklist, safety-critical fail criteria, evidence, outcome, sign-off and review date	02_VOC_ASSESSMENT/Compressed Air and Pressure Washer VOC Assessment Tool.docx and .pdf
Knowledge questions, candidate version	02_VOC_ASSESSMENT/Compressed Air and Pressure Washer VOC Knowledge Questions (Candidate).docx and .pdf
Marking guide with model answers, assessor version	02_VOC_ASSESSMENT/Compressed Air and Pressure Washer VOC Marking Guide (Assessor).docx and .pdf
Excel VOC register: who is verified, on what, and when they are due	02_VOC_ASSESSMENT/Compressed Air and Pressure Washer VOC Register.xlsx

Compressed Air and Pressure Washer VOC Assessment Tool

Verification of competency for one operator, on the equipment and tasks in scope, at [Site name]

Purpose	To check, and record, that a worker can use safely on your plant, at your site, following your procedures.
When to use it	Before a new worker does the work unsupervised at the site; when they start on a new type of machine, attachment or task; at the re-verification interval your business sets; and after any of the review triggers in Part K.
Who completes it	An assessor your business has chosen as competent to assess (see Part B). The candidate completes the knowledge questions and signs Part J.
What goes with it	The Knowledge Questions (Candidate) for the candidate to answer, the Marking Guide (Assessor) with the model answers, and the VOC Register to track who is verified and when they are due.

Before you start

- Agree the scope (Part C) with the candidate's supervisor: what the candidate will do, on what, and where.
- Do the pre-assessment checks (Part D) before anything else. If one fails, do not start.
- The candidate answers the knowledge questions. Mark them with the Marking Guide and record the result in Part E.
- Observe the practical work (Part F) in the real work area, during normal work where it is safe, with other people kept clear.
- Watch for the safety-critical fail criteria (Part G) the whole time. Any one stops the assessment.
- Record the evidence, the outcome and the re-assessment plan (Parts H and I), give feedback, and sign off with the candidate (Part J).

Licences, training and the VOC

No high risk work licence is needed for using compressed air equipment or pressure washers under the WHS Regulations or, in Victoria, the OHS Regulations. The business must still make sure each worker is trained, competent and supervised for the work. Some pressure equipment, such as larger air receivers, may need to be registered with the regulator and inspected in service. Electrical repairs are for a licensed electrician. A VOC is the business's own check that a worker can do the work safely at its site: it is not a licence and it is not a nationally recognised qualification.

training.oranaskillscentre.com/documents/compressed-air-and-pressure-washers-voc-assessment-template

Part A Candidate details

Name		**Position or role**	
Employer (if a contractor or labour hire)		**Employee or worker ID**	
Training or units of competency held (where required)		**Training completed (course and date)**	
Experience with this compressed air and pressure washer equipment		**Last VOC or training (date)**	

Part B Assessor details

Name		**Position or role**	
Experience in this work (compressed air and pressure washer equipment)		**Licence or training held (where relevant)**	
Assessor training or experience		**Relationship to the candidate (for example, supervisor, peer, external)**	

The assessor should not assess work they are not competent to do themselves. Where the assessor is the candidate's direct supervisor, record it above. It is allowed, but an independent assessor is preferred where practicable.

Part C Scope of this VOC

This VOC covers only the equipment and tasks ticked and written here.

Equipment (tick each one assessed)	Tasks (tick each one in scope)
☐ Air compressor and receiver	☐ Connecting and disconnecting hoses and couplings
☐ Air tools and blow guns	☐ Using air tools
☐ Cold water pressure washer	☐ Blowing down equipment (not people or clothing)
☐ Hot water pressure washer	☐ Pressure washing
☐ Other: _____	☐ Draining the receiver and shutting down
	☐ Other: _____

Compressed Air and Pressure Washer VOC Knowledge Questions (Candidate)

Answer in your own words. You may answer out loud and have the assessor write it down.

Name		Date	
Equipment		Site	

For the candidate

These questions check that you know how to do this work safely at this site. Answer every one in your own words. Short answers are fine. If you have trouble reading or writing, tell the assessor: they will read the questions to you and write down your answers.

1. Why must compressed air or a pressure washer never be pointed at a person or used to clean clothing or skin? ★ critical
